

THE SPECIALIST FOR MOTION TECHNOLOGY

PASSION THAT MAKES THE DIFFERENCE

NADELLA'S QUALITY IN PRODUCTION
GOES BEYOND THE FEATURES
OF EACH OF ITS PRODUCTS, A VALUE
THAT INVOLVES ALL BUSINESS PROCESSES
AND TRANSFORMS COMPONENTS INTO
THE BEST SOLUTION AVAILABLE !

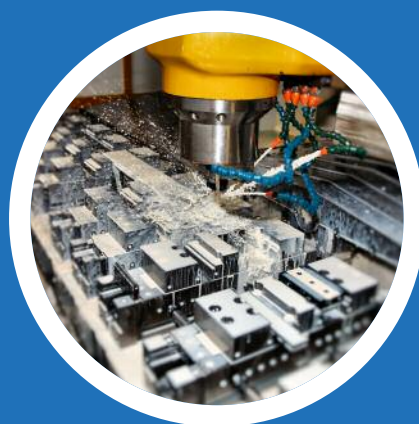

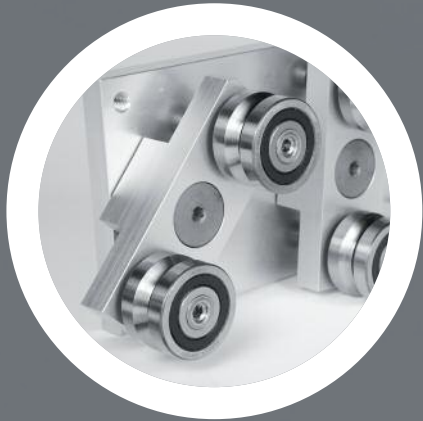

A **LEADING**
Group

NADELLA SINCE 1930

As **a company**, there are **8** locations with a presence in over **60** countries. Nadella employs more than **5%** of its staff in the research, development and engineering. Nadella uses a **10,000** SM production area to produce more than **20,000,000** units that are shipped per year, with **100** new products annually developed. Nadella also offers over **50,000** of its production items in stock.

KNOWHOW

Flexibility and Creativity

DESIGN AND MANUFACTURING

Nadella makes products with the **latest technology**, in the earliest stages of **research and development**.

Nadella strength is offering better designs and customizations with a focus on finding the solution, with the best **cost/benefits** ratio in the market.

SOLUTIONS

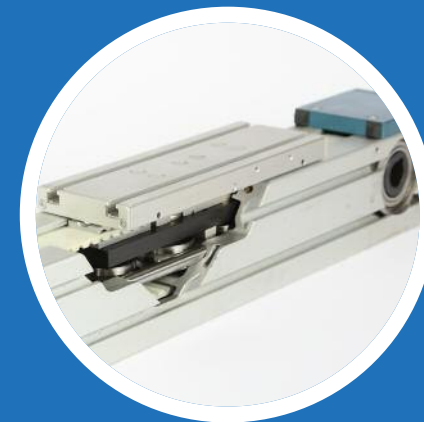

for companies that look
for the best

CUSTOM PRODUCTS

Nadella manufactures its products with the most **modern technologies**, using **highly selected materials** and production methods, which are, subject to **continuous improvement**.

A production capability that can development and assemble of a wide range of certified components that are able to ensure **quality and reliability over time**.

GERMAN QUALITY

Italian creativity

French refinement

CERTIFIED QUALITY

Quality certifications have been obtained over the years. Nadella exceeds **international standards**, and will continue to ensure production at the **TOP**.

Quality controls in production plants follow certified procedures that make product reliability the strength of **Nadella's success**.

WE CONTINUE

to the grow in over

60 countries

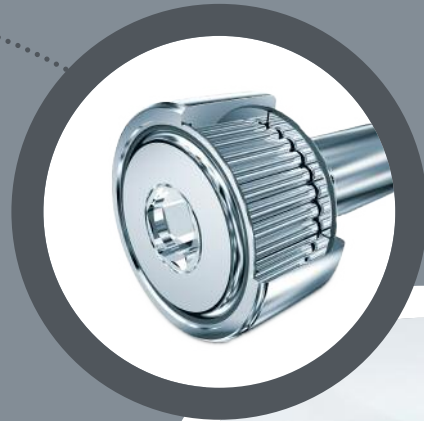

EXPORT WORLDWIDE

For over **87 years** Nadella is leading the way in the **international market**.

Industry

Transport

Green and Medical

NADELLA HAS A DEVELOPMENT OF
APPLICATIONS FOR THE MOST IMPORTANT
INDUSTRIAL SECTORS INCLUDING PRODUCTION
OF HIGHLY CUSTOMIZED PRODUCTS.

SKILL

and "Know-How"

INDUSTRY

Performance and Reliability

Nadella has developed applications for some of the **most important industrial sectors** in the world.

Nadella's products (Needle Bearings, Linear and Telescopic Rails, Cam Followers, Linear Modules, Rod Ends and Adjusting Nuts) are **successfully** used in the **hardest of applications**.

Applications Field

- Industrial automation
- Packaging
- Sheet metal processing
- Foundry and Ironworks
- Material handling
- Machine tools
- Instruments
- Marble and ceramic industry
- Glass and paper industry
- Cutting machines
- ...

SAFETY

and Reliability

TRANSPORTATION

Performance and Durability

Nadella's products are designed to ensure **long-lasting performances**.

These products offer the best solutions, even for demanding sectors such as transportation, **requiring safe and reliable products** for millions of cycles with little maintenance needed.

Applications Field

Railway and tramway

Aircraft

Nautical

Gondola lifts and cable cars

Agricultural and earthmoving vehicles

Special and industrial vehicles

...

INNOVATION

for the future

GREEN AND MEDICAL

Progress and Health Care

Nadella guarantees **tailor-made solutions**, even, in the areas where it's important to help the **environment and ensure the future** for generations.

Nadella offers an entire range of stainless steel for the medical environment, and the willingness to develop **innovative products** with its customers.

Applications Field

Solar panels

Wind turbines

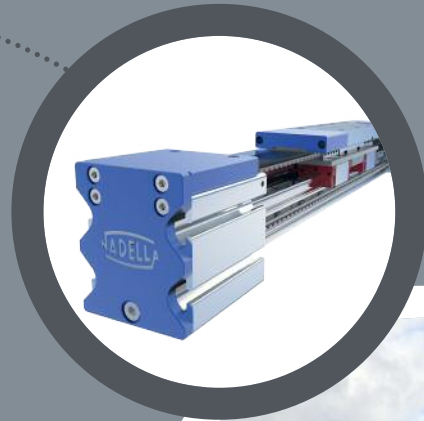

Recycling and waste management

Medical machines and ophthalmic instruments

Analysis machines

Pharmaceutical production

..

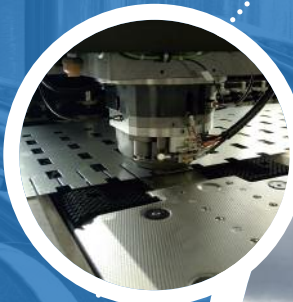

Specialties

CUSTOMIZED
PRODUCTS FOR EVERYONE
AND THE WHOLE WORLD !

CUSTOMIZED

Specializations from Design
to Production

SPECIALTIES

The impossible is achievable !

Nadella continues to work with **customers for solutions** that enable **high performances**. Nadella continues to design superior product such as:

Guide Rollers that work in the depths of the sea, on installation of cables in offshore platforms.

Cam Followers made of special steel that bend Rebar iron rods to reinforced concrete.

Rolbloc Carriages that withstand shock loads from deflagration.

Linear Modules for packaging lines that need stroke lengths over 12 meters.

Wheels fitted with special lubricants for satellite's test rooms, and many more

...

Applications Field

Guide rollers for abyssal environments

Cam followers that bend steel

Burst-proof carriages

Extremely long linear module

Satellite wheels

...

NADELLA
THE PERFECT PARTNER
FOR FORWARD-LOOKING COMPANIES !
